## COP27 Side Event

# Innovation and Capacity Building for Economically Viable Transitioning of Traditional Carbon-Intensive Hubs and Markets

Thursday 10 November 2022, 1400 – 1500 (EET), Blue Zone,  
Sharm El-Sheikh Convention Center

Joint capacity building event by CSET Youth AG, the UN Major Group for Children and Youth, SEforALL, the World Federation of Engineering Organizations (WFEO) Young Engineers Working Group on Climate Action and public and private sectors. Event objectives include:

- Share scenarios where policy, technology and business model innovation contribute to the achievement of net-zero emissions and Nationally Determined Contributions (NDC) targets
- Highlight transition from carbon-intensive hubs and markets as smart economic decisions for stakeholders; showcase Renewable Energy with Long Duration Energy Storage and Geothermal projects
- Highlight relevance to youth-led capacity-building and linkages with Action for Climate Empowerment

### Speakers

**Alache Fisho**

Legal Adviser, Oceans & Natural Resources  
Commonwealth Secretariat

**Evangelos Pastras**

Renewable Energy Storage Expert and  
CSET Youth AG member

**Brian Kakembo**

Founder/CEO, WEYE and  
CSET Youth AG member
