

The Commonwealth

Practical Tools to Limit Climate Change

Launch of the Commonwealth Carbon Tax Model Law and Net-Zero Oil and Gas Regulatory Toolbox

5 December 2023, 1600–1730 (local time)

The Commonwealth Pavilion, Room MA09-G4, Blue Zone

All COP28 participants with access to the Blue Zone are welcome to attend.

Governments have a critical role in limiting climate change – one of which is in their regulatory capacity to codify policies and plans. Countries need assistance to do so, given the short window of opportunity to act.

The Commonwealth Secretariat has developed practical tools that can assist countries to reduce emissions, meet their NDC targets and achieve the Paris Agreement's goals.

The event will launch two such tools, followed by panel discussion and Q&A session.

- *The Commonwealth Carbon Tax Model Law*, by Daniel Wilde, Economic Adviser, the Commonwealth Secretariat;
- *The Commonwealth Net-Zero Oil and Gas Regulatory Toolbox* by Naadira Ogeer, Economic Adviser, the Commonwealth Secretariat.
